## McELWAIN CO. WILL ERECT NEW BUILDINGS

### Work to be Done at Once by Local Contractors

The McElwain Shoe Company are planning for extensive building operations at their plant on the river near Newington this spring. Local contractors are at present estimating on plans for the erection of two large buildings besides a power plant. From all indications the McElwain plant promises to be a valuable acquisition to the new industries of this city.

## CAR CLEANER HIT BY TRAIN

The afternoon train from this city over the Concord and Portsmouth branch of the Boston and Maine struck Francis Bonnin, a car cleaner in the yard in Manchester on Friday. The report says that Bonnin was dragged several feet under the cowcatcher of the engine but none of the wheels passed over him. When taken out he was in an unconscious condition and his body was badly bruised and cut. The physicians say he will recover.

### CONTRACT AWARDED.

The contract for the work of erecting the gas storage tanks for the Portsmouth Gas Company has been awarded to the firm of Davis and Farnham of Waltham, Mass. They will begin work as soon as the foundation for the same is ready.

## MARINE MURDEROUSLY ASSAULTED ON BRIDGE

### Private O'Brien Receives Many Knife Wounds in Head and Body. Two Marines Arrested on Suspicion of Having Done the Job

William O'Brien, a member of the marine guard of the U. S. receiving ship Southern, was murderously assaulted at an early hour this morning on the Portsmouth and Kittery bridge as he was returning from this city to the navy yard.

Shortly after 2 o'clock as William Chapman of Kittery was returning to his home he espied three men in uniform engaged in a fight about midway on the bridge.

On seeing Chapman approaching two of the men fled, leaving the other lying prostrate on the plank of the bridge. On reaching the spot he found that O'Brien was bleeding profusely and was weak from the loss of blood.

He hurried back and notified Watchman John Williams at the Noble's Island bridge of what had occurred and Police Officer George H. Carlton was at once apprised of the occurrence. Owing to the weakened condition of O'Brien, a team was hastily procured and he was taken to the police station where City Physician Johnston was in waiting.

On examination he found that O'Brien had received five knife wounds in the back, six in the face and neck, several on each arm and hand, nearly twenty-five gashes in all. The blood had congealed somewhat and the city physician decided to send him to the yard hospital for treatment and the yard ambulance was summoned and he was taken to the navy yard.

On learning of the stabbing affray Captain of the Night Police Burke immediately notified the navy yard and instructions were given to examine all who entered the yard at the main gate. Shortly after

## YACHT CLUB WILL HAVE THE CHANNEL DREDGED

### Work to be Done by Subscription and the City

The members of the Portsmouth Yacht club are working on a move to get the back channel dug out at the river front from Shea's wharf to the club float. They want the channel made thirty feet wide and three feet deeper to give them six feet there at low water. With the Yacht club the fishermen are working and it seems as if something will be accomplished. The plan is to raise subscriptions among the club members and then ask the city government to give some assistance to the project. This matter will sooner or later need the attention of somebody and the club is showing a lot of enterprise in taking it up. A figure has been asked from the Eastern Dredging Company for the work. The scheme should have all such aid as the city officials are able to lend from the fact that it would be a public landing nearby.

### ANOTHER ITALIAN BAKERY.

A bakery will be built in the rear of the residence formerly owned by Mrs. Leary on Russell Street to which the foundation was started today.

BEDDING-HALL

One Piece Seamless PORCELAIN LINED

Saves Ice Is Cleaner

You gain two advantages when you put the famous Bedding-Hall One-Piece Seamless Refrigerator in your home:  
First, you cut down your ice bills—because the Bedding-Hall makes your ice last 12 to 24 or 36 hours longer; it is built with scientifically perfect insulation—heat can't creep in, cold can't get out.  
Second, you can keep it cleaner—the provision chamber of the Bedding-Hall is lined with snowy-white, fine porcelain, with round corners—no crack, no crevice, no place for the least little dirt to stick—you can keep it clean and so on order than any other refrigerator.

# George Horine, the Stanford Athlete, Establishing a World's Record for the Running High Jump

GEORGE HORINE  
PHOTO BY AMERICAN PRESS ASSOCIATION

Stanford University, California, April 6.—The athletic world is still talking of the wonderful performance of George Horine of Stanford University, who broke the world's running high jump in a meet with the University of Southern California here March 28, when he cleared the bar at 6 feet 6-1/8 inches. The previous record of 6 feet 5-1/2 inches was made by N. F. Sweeney at New York

Sept. 21, 1895. Two days before he broke the intercollegiate record in a jump of 6 feet 4 inches. Horine has been prominent in athletic circles on the Pacific coast for several years. For three years experts here have stamped him as the best jumper in the country and predicted he would eventually hang up a world's record. He first came into prominence at the Portola exhibition in San Francisco

in 1899, when he cleared a bar at 6 feet. About a year ago he jumped 6 feet 4-1/4 inches, but several times since then he has been beaten at 6 feet 2 inches. Horine is sure to be a member of the American Olympic team. He should add some points to the Yankee aggregation. Pictures show Horine going over the bar at 6 feet 6-1/8 inches.

## KITTERY POINT

What Is Happening in the Harbor Town

The Fire company announces another Ladies' Whist Party at Firemen's hall, Wednesday evening, April 10.

John Foye is enjoying a vacation from his duties at the navy yard.

Hiram Tobey, Sr., has nearly completed a fine looking 23 foot motor boat for Herbert Witham.

The schooner Henrietta Simmonds, with a cargo of coal for this suffering community, was last reported a Vineyard Haven, Mass.

Miss Edith Churchill will deliver the essay at Trip Academy on Commencement Day in June next.

Hyland Mitchell and Eugene Williams have commenced to paint the set of buildings owned by Frisbee Brothers.

Wilton P. Bray, who for the past fourteen years has conducted a variety store near the car barn, is to leave his store and dwelling house and will try his fortune on a farm in Kingston, N. H. It is hard to conceive of Wilton as a tiller of the soil, but his many friends wish him all success in his new venture.

Dr. E. B. Shapleigh is confined to his home with a badly sprained ankle.

Frisbee Brothers have purchased a new horse and delivery wagon. Master Richard Seawards is confined to the house by whooping cough.

Mrs. Josephine Frisbee left on Friday for Beverly, Mass., to visit her son, Sidney.

Friday can surely claim the record for varieties of weather furnished.

Easter Sunday will be observed at the Free Baptist church, Kittery Point, at 2 o'clock p. m. Sermon by the pastor, Rev. R. W. Churchill. Subject, "Wherein the Resurrection

Truth has its hold upon." The subject for the evening service will be "St. Paul's great Contingency—If Christ Be not Risen." Easter music in the afternoon.

Mrs. Libbey of Attleboro, Mass., is visiting Mr. and Mrs. Fred Libbey. Another car of the Atlantic Shore Line left the rails near Port, McClary Thursday afternoon, causing transfer of passengers for some time.

Merrill Pinkham, steward of the tug Mitchell Davis, has returned from Boston, where the vessel is being repaired.

## MARINE MURDEROUSLY ASSAULTED ON BRIDGE

Continued from Page One.

At about this morning Privates Brown and Ellsworth were arrested on suspicion of having committed the assault as they were entering the yard. The clothing of both of the men was smeared with blood and in the pockets of one of the men was found a jack knife covered with blood. Both men are attached to the marine barracks and have been here only a short time, Brown coming from Norfolk and Ellsworth from the detention camp at Port Royal.

O'Brien, the victim of the assault, belongs in Watertown, Mass., and is twenty-nine years of age. At the naval hospital this noon it was said that his wounds were of a superficial nature, and although weak from the loss of blood he would undoubtedly recover.

The warm weather of Friday attracted a number of the members of the Country Club to try their luck at golf. The course is being opened up and it has gone through the winter very well and with warm weather will feel round into condition.

# A LONG RECORD WITH FIRE COMPANY

Captain Herbert E. Fernald Has Served Twenty-Nine Years With Kearsarge, No. 3.

Captain Herbert E. Fernald, who was re-elected captain of the Kearsarge Engine company No. 3, on Wednesday evening, on Monday had served just twenty-nine years with this company as an active fireman. This makes Captain Fernald the veteran of the company with the exception of George Jones, and there is not a fireman in the city better known than Captain Fernald. Mr. Fernald was born in this city

Herbert E. Fernald.

April 23, 1882, the son of Mrs. Lucy Fernald and the late Herbert E. Fernald, and early in life after his school days he became interested in the fire department and for a time as a youngster ran with the company as a substitute and April 1, 1883, he was made a member of that company and has served faithfully ever since. As a young man he worked in the card room of the Kearsarge mill until it was destroyed by fire and he then worked in the shoe factory, until he was called as a watchman on the navy yard, and he later was transferred to the Hull division, and he has worked in this department for the last twelve years.

He was made a Captain of the Kearsarge company in 1891, and served in that capacity to 1896. He was again elected to the same position last year and again this year.

He is now senior captain of the fire department and under the orders of the Board of Engineers is in charge, if the three members of the Board should happen to be out of the city. Captain Fernald is a cool and heady fire fighter, who has made a study of the work and is always willing to get into the thick of the work.

Herb is a member of the Osgood lodge, I. O. O. F., and the St. Andrews lodge of Masons. He has been a stage hand at Music hall for the past twenty-three years and ranks as a veteran in this also.

## GOOD FRIDAY SERVICES IN THE CHURCHES

**President Hyde of Bowdoin College  
at the North Church--Bishop  
Parker at St. John's.**

Good Friday was observed here with special services in several of the churches, and at all there was a very good attendance.

At the Church of the Immaculate Conception there was a congregation present which taxed the capacity of the church and the usual services for Good Friday were impressively given.

There was a service at the Christ church and at the St. John's church Rt. Rev. Bishop Parker preached the sermon and an augmented choir rendered Stalder's "The Crucifixion."

At the North church there was a very large audience to hear President William DeWitt Hyde, of Bowdoin college. His subject was "The Fundamental Loyalties: Home, Work, State, God," and he treated it in a well reasoned and scholarly manner. He devoted a small space of time to conditions that exist in this city and left no doubts in the minds of his audience of his meaning. President Hyde is a very able speaker and he retained the closest attention of his audience at all times.

A special musical program was given and the choir were assisted by Oliver Dowd, violinist.

At the Christian church on Court street there were special services and a special musical program was very well rendered.

### U. V. U. HALL.

Bible Students' Association  
(Undenominational.)

Divine service, Sunday, April 7, in U. V. U. hall, Congress street, Portsmouth, at 3 p. m. Mr. E. T. Lake, who will be the speaker on this occasion, will take for his topic "The

MANNER of the Lord's Coming." This is a very interesting subject, for not only is the FACT of the Second Advent very important and an appreciation of its necessity requisite in order to a clear and comprehensive understanding of the Divine plan, but it is also equally necessary that the MANNER of the Second Advent be clearly and fully understood. Many have failed to notice the force and meaning of the Scriptural statement, viz.: "Shall so come in like MANNER as ye have seen him go into heaven." (Acts 1:11.) The likeness is in the MANNER of his going. His coming again will, therefore, be in the same manner. Both our Lord and His Apostles say that He will come as a thief in the night; stealthily, quietly and unobserved by the world in general. The speaker will illustrate the subject from a Scriptural standpoint, and a comparison will be made with the prevailing and popular views. A cordial invitation is extended to all to be present at this service. Seats free. No collection.

**WHAT TAFT HAS ACCOMPLISHED.**

At a recent meeting of the Portsmouth Roosevelt club, Senator Clapp and Mr. Churchill depicted President Taft as a man "weighed in the balance and found wanting."

It is interesting to recall in this connection what Theodore Roosevelt said about Mr. Taft as late as a date as September 27, 1910, and before the overmastering ambition to return to the White House distorted his opinion of his former friend and comrade.

In his speech to the Republican State Convention, which was held in Saratoga, September 27, 1910, Mr. Roosevelt as chairman of the convention said:

"We come here feeling that we have the right to appeal to the people from the standpoint alike of National and State achievement. During the last eighteen months a long list of laws, embodying legislation most heartily to be commended as combining wisdom with progress, have been enacted by Congress and approved by Pres. Taft. The amendments to the interstate commerce law, beginning of a National legislative program for the exercise of the taxing power in connection with big corporations doing an interstate business; the appointment of a commission to frame measures that do away with the evils of overcapitalization, and of improper and excessive issues of stocks and bonds; the law providing for publicity of campaign expenses; the establishment of maximum and minimum tariff provisions and the exceedingly able negotiations of the Canadian and other treaties in accordance therewith; the inauguration of the policy of providing for a disinterested revision of tariff schedules through a high-class commission of experts which will treat each schedule purely on its own merits, with a view both to protecting the consumer from excessive prices and to securing the American producer and especially the American wage workers that which will represent the difference of cost of production here as compared with the cost of production in countries where labor is less liberally rewarded; the extension of the laws regulating safety appliances for the protection of labor; the creation of a bureau of mines, those, and similar laws, backed up by executive action, reflect high credit upon all who succeeded in putting them in their present shape upon the statute books; they represent an earnest of the achievement which is yet to come, and to be beneficence and far-reaching importance for the whole people measure the credit which is rightly due to the Congress and to our able, upright, and distinguished President, William Howard Taft."

Ten days earlier, Mr. Roosevelt, in a speech at Syracuse, after showing how Mr. Taft had "served his country honorably and uprightly in many positions" emphatically approved his attitude on the question of the judiciary, saying "but few of his services are more deserving of record than what he said in this matter of the criticism of the judiciary."

Mr. Taft is the same honorable and upright man he was in 1908 when Mr. Roosevelt forced his nomination, and, in 1910 when the Colonel repeatedly eulogized his administration. What change has occurred is in the Colonel and not the President, and it has revealed to the country unexpected and startling aspects of the Colonel's character.

**THE MAN WHO WAS.**  
(From Canadian correspondent to the "Transcript" March 27, 1912.)  
Mr. Roosevelt could have been more stating it, and by seeming to be looking a personal conviction

than from a desire to bask in the presidency once more?  
It is sore jesting at a demigod whose niche was in the political Pantheon with Cromwell, Hampden, Pym, Burke, Washington, Lincoln, Lloyd-George and many other great Deliverers. He lacked not Fame, he could acquire no more than he possessed of that "last infirmity of noble minds." He had won what is better—opportunity to be vastly useful. And to abandon all for the butterfly chase of nomination. To become as The Man Who Was.

Major Badger seems to be working overtime on the veto question.  
The month of April up to the present time, has certainly furnished us with a variety of weather.

Will the weather be fair on Sunday so as not to mar the display of Easter millinery is a question that is at present uppermost, with both the suffragette and the women who are opposed.

**BIRD'S EYE VIEWS.**  
Richard Croker occasionally comes over and dines with his old-time New York friends. But, in spite of the interesting developments in public affairs, he never goes on record with any after-dinner speeches.

The remark that co-operation is better than competition is attributed to Mr. George W. Perkins. The man who is not in on the gentleman's agreement cannot be made to see this.

There are now nearly a dozen long months ahead of us when it will not be necessary to worry about whether March will come in like a lamb or a lion.

Business is more important than politics, and the people are going right ahead on the lines of progress and prosperity, regardless of what the politicians do.

The North Dakota primaries were a great surprise, in the way the steam roller on the prairies ran over one rough rider who was a former resident of that state.

J. Pierpont Morgan is spending the winter in the deserts of Egypt. He has had so much to do with water that it must be refreshing to him to get where it is really dry.

Although the airship is making progress as an engine of war, it is still most dangerous to the man who is trying to run it.

Theodore Roosevelt has unquestionably spoiled his chance of looming up as a dark horse at the Chicago convention.

Recent excavations of Pompeii have emphasized the already understood fact the town needed better sidewalks and more enlightened building regulations.

Woodrow Wilson's pedagogic talents have been brilliantly manifested in the political correspondence school he has been so industriously conducting.

Justin McCarthy, Sumner F. Denett, Walter Jenkins, Philip Yeaton, Herman Doolittle, Luther Pattee and Sherman Ward are among the Dartmouth college students who are passing the Easter vacation at their homes in this city.

**GOOD NEWS.**  
Many Portsmouth Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in Portsmouth are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is had no more thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with Old Quaker Remedy. There is an example worth reading: James W. McMullen, 69 Dennet St., Portsmouth, N. H., says: "I now that Doan's Kidney Pills are an excellent remedy as they have been used in my family for pain and sickness across the loins and difficulty with kidney secretions and they have always lived up to reputation. I have no hesitation in giving Doan's Kidney Pills my endorsement."

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.  
Remember the name—Doan's—and take no other.

The sale of the Mechanics' block property recalls to mind the once prosperous Associated Mechanics and Manufacturers' Association which flourished for many years. The present building was built in 1873 by the late Isaac Wilson, a well known contractor of that period. For many years a good portion of the second story was used as a reading room by the members of the Association and here were wont to gather almost daily John R. Redding, Captains Grace and Parker, Major Beck, Edward J. Moulton, Dr. Samuel C. Whittier and others, the greater number of whom have passed over to the other shore. Benjamin M. Parker, who died last year at the advanced age of ninety-one years, was the custodian of the reading room for quite a number of years.

It was in this building that The Portsmouth Herald first saw the light of day, being started in September, 1884, during the Elaine and Logan campaign and was then called The Penny Post. The little sheet was printed in the office of Randall and Sanderson and the editorial and news work was done by Major Edward A. Tilton and Col. Joseph R. Curtis. The little paper at once found favor with the public and its circulation so increased that with the beginning of the year 1888 it was enlarged to the size of the Boston Globe and published by a company composed of William O. Sides, Ed. Win. A. Tilton and Joseph R. Curtis. While the paper was published in the Mechanics block, it had for carriers and newsboys, men who have since gone out and made good in the professional world. Like all other newsboys they were possessed with a spirit of mischief and on many occasions made life miserable for Mr. Parker. The boys would congregate in the hallway and becoming somewhat bolder he would drive them down in the front stairs, but hardly would his back be turned before they would re-appear by way of the back stairs. When the paper took up new quarters in Franklin block, Mr. Parker breathed a sigh of relief.

The upper portion of the building, now used as a hall by the members of the Gen. Gilligan Marston Command, Union Veterans Union, was at that time used for a Commercial school, presided over by Lewis E. Smith. A number of our bank offi-

**SHOW PLEASES ALL.**

Good Photo-Plays and Vaudeville at Music Hall.  
We have all heard of "Everybody Works but Father" and have listened to that popular song. Friday evening at Music Hall we were given the privilege of seeing father pictured in that role in an interesting and amusing photo-play, entitled "Father's Bluff." Mother and daughter were industriously employed with their various tasks, but when father could summon sufficient courage and audacity to attempt to do a little work, his courage lasted but a short time. When it came to sawing wood, Father "gave up" in disgust. Daughter tried it, but turned the task over to her gentleman friend as he happened to appear at an opportune moment. But he was not fascinated with the job and did not keep it long. He proposed to the daughter, the proposition did not suit father. The latter threatened to kill himself if daughter married the young man. The young man thought it time to call father's game and proceeded to supply him with several appliances, whereby father could end his life. Everything was made so easy for him that father changed his mind, consented to the young man and we presume everything went along all right thereafter.

Catholic services as usual at Grange Hall tomorrow with special Easter music.

Mr. and Mrs. Stephen H. Baultel have returned from a trip to Boston. There will be no school at Traip Academy on Monday, as the teachers are to take that day as "visiting day."

A new hard wood floor has been laid in the little serving room of Wentworth hall.

The Junior Exhibition this year of the juniors of Traip Academy will be in the form of a debate, the question to be discussed being "Resolved, That Woman Suffrage Would be an Advantage to this State." The following six have been selected for the debate, the first three on the affirmative, and the others on the negative: Neeta Knight, Susie Baker and Clarence Moody, affirmative; Edna Smith, Gladys Spinney and Raymond Cole, negative.

At U. V. U. hall Sunday afternoon, April 7, at 3 o'clock, an interesting discourse on "The Manner of the Lord's Return" is promised by the E. S. A. The Bible statements will be fully presented in their harmonious bearing on this subject. The speaker, Mr. Eugene T. Lake, will bring out some very interesting facts about the Greek words translated "see" in the inspired statement, "every eye shall see him."

Next week promises to be a busy week socially.

The Phoebes held their regular business meeting last evening in the vestry of the Second Christian church and at this time the plans were completed for the supper and entertainment which they are to hold in the church vestry on Wednesday evening next. It was decided to hold a salad supper with hot rolls, creamed chicken, coffee, desserts and fruit. An excellent entertainment will be given in the evening. The supper is from 5 to 7, and the program will be given immediately after. Five new members were taken in. Following the business meeting the hostesses, Mesdames Bowden, Fernald and Culbertson served ice cream, assorted cake and

fancy crackers. It was late hour before the company dispersed.

The senior and junior girls of Traip Academy are busy preparing for their play, "Rebecca's Triumph," which they are to give in Academy hall on the evenings of April 18 and 19.

G. L. Trefethen, plumbing and heating, water pipe and fittings, faucets, valves, etc., conductor pipe and fittings, Kittery, Maine.

Rev. D. F. Faulkner, formerly pastor of the Second Methodist church, and for the past few years assigned to the Sanford M. E. church, was at the recent conference transferred to the Park Street church of Lewiston.

Samuel Hodgdon, who is now janitor of Traip Academy and the Wentworth block, will move his family to Kittery from Kittery Point when a suitable tenement can be found.

## NOT SALTS, OIL OR PILLS BUT CASCARETS

No odds how sick your Stomach; how hard your headaches or how Bilious—Cascarets make you feel great.

You men and women who somehow can't get feeling right—who are an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are ill, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all torn out.

Are you keeping clean inside with Cascarets, or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach; remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

## PEACE CONFERENCE ROOM TO BE CLOSED TO VISITORS

Continued from First Page.

The work of the general storekeepers department has been carried on most efficiently for many years and no complaint has been made until now. It would appear that some one has a magnified importance of himself and has very foolishly stepped into a matter that will promptly require attention at Washington. The silly claim about attracting and interfering with the clerical work will not stand in the way of the thousands of patriotic citizens of this country who annually make the pilgrimage to Portsmouth.

Some one is treading on dangerous ground and New England will not stand for abolishing or in any way curtailing the rights of the people to visit the conference room. There is sufficient room for a thousand additional clerks on the Navy yard and the Herald does not believe Admiral Rogers will permit the move now made to close the peace conference room. If there must be a change, move or remove the clerks but do not in any way curtail or destroy the importance that is attached to the Peace Conference room.

For Weak Men.

Send Name and Address Today-  
You Can Have It Free and Be  
Strong and Vigorous.

I have in my possession a pre-  
scription for nervous debility, lack  
of vigor, weakened manhood, failing  
memory and lame back, brought on  
by excesses, unnatural drains or the  
illness of youth, that has cured so  
many worn and nervous men right in  
their own homes—without any addi-  
tional help or medicine—that I think  
every man who wishes to regain his  
manly power and virility, quickly  
and quietly should have a copy. So  
I have determined to send a copy of  
the prescription free of charge, in a  
plain, ordinary sealed envelope to  
any man who will write me for it.  
This prescription comes from a  
physician who has made a special-  
study of men and I am convinced it  
is the surest acting combination for  
the cure of deficient manhood and  
igor failure ever put together.  
I think I owe it to my fellow man  
to send them a copy in confidence so  
that any man anywhere who is weak  
and discouraged with repeated fail-  
ures may stop drugging himself with  
harmful patent medicines, secure  
what I believe is the quickest-acting,  
restorative, upbuilding, Spot-Touch-  
ing remedy ever devised, and so cure  
himself at home quietly and quickly  
just drop me a line like this: Dr. A.  
E. Robinson, 4724 Luck Building, De-  
roit, Mich., and I will send you a  
copy of this splendid recipe in a  
plain ordinary envelope free of  
charge. A great many doctors would  
large \$3.50 to \$5.00 for merely  
writing out a prescription like this—  
but I send it entirely free.

SHE QUIT COFFEE.

And Much Good Came from It.  
It is hard to believe that coffee  
will put a person in such a condi-  
tion as it did a woman of Apple  
Greek, O. She tells her own story.

"I did not believe coffee caused my  
trouble and frequently said I liked it  
so well I would not quit drinking it,  
even if it took my life, but I was a  
miserable sufferer from heart trou-  
ble and nervous prostration for four  
years.

"I was scarcely able to be around  
at all. Had no energy and did not  
care for anything. Was emaciated  
and had a constant pain around my  
heart until I thought I could not en-  
dure it. I felt as though I was liable  
to die any time.

"Frequently I had nervous chills  
and the last excitement would drive  
sleep away, and any little noise  
would upset me terribly. I was  
gradually getting worse until finally,  
one day, it came over me and I asked  
myself what is the use of being  
sick all the time and buying medi-  
cine so that I could indulge myself  
in coffee?

"So I thought I would see if I  
could quit drinking coffee, and got  
some Postum to help me quit. I  
made it strictly according to direc-  
tions and I want to tell you that  
change was the greatest step in my  
life. It was easy to quit coffee be-  
cause I had the Postum which I like  
better than I liked the old coffee.  
One by one the old troubles left, un-  
til now I am in splendid health,  
nerves steady, heart all right and  
the pain gone. Never have any more  
nervous chills, don't take any medi-  
cine, can do all my housework, and  
have done a great deal besides.

"My sister-in-law, who visited me  
this summer, had been an invalid  
for some time, much as I was. I  
got her to quit coffee and drink Pos-  
tum. She gained five pounds in  
three weeks, and I never saw such a  
change in anyone's health."

"There's a reason."  
Ever read the above letter? A new  
one appears from time to time. They  
are genuine, true, and full of human  
interest.

## TAFT INSISTS ON AID TO FARMERS

Says Department of Agriculture Work Must Go On.

### LABORS FOR CONSERVATION.

Far-reaching Legislation Administered by Scientists of Rank Brings Good Results to Tillers of Soil—Food and Drugs Act Upheld to the Letter.

In his inaugural address President Taft called attention to the deficit then existing in the revenues and the consequent necessity for rigid economy in expenditures. However, the president stung out the department of agriculture as an exception. He said, to quote his exact words, "In the department of agriculture the use of scientific experiments on a large scale, and the spread of information derived from them for the improvement of general agriculture must go on." This view the president has steadily maintained, and repeatedly has urged appropriations for the work of the department.

In his comprehensive message on conservation President Taft said, "The feature that transcends all others, including woods, waters, minerals, is the soil of the country," and that all means at the government's disposal should be used to conserve the soils, adding, "In work of the utmost importance to inform and instruct the public on this chief branch of the conservation of our resources is being carried on successfully in the department of agriculture."

Reports made recently to Secretary Wilson of the department of agriculture by the heads of his bureaus justify this solicitude on the part of the president for the department. In calling for these reports the secretary asked that they be brief and that they mention notable achievements of the last five years only, inasmuch as that period is really the period of fruition in the department, the period during which, owing to the broad foundations previously laid by the training and grouping of many corps of scientific men, by securing far-reaching legislation, by gathering together masses of statistics and other information, by providing scientific and other equipment, it has been possible to produce most marvelous results for the common good of the people.

### Taft For Conservation.

In his conservation message President Taft emphasized the importance of the maintenance of the forests and urged their scientific treatment "so that they shall be made to yield a large return in timber without really reducing the supply," and in other messages he pointed out the necessity of reforestation. In accordance with these views much available work has been done in protecting the national forests and by researches in the laboratory of the department at Madison, Wis., and in the past five years the work of reforestation has been proceeding at the rate of 15,000 to 20,000 acres a year. The department takes justifiable pride in its forest work, considering the administration of 100,000,000 acres of land protected and managed for the public benefit a great achievement.

Since Jan. 1, 1907, when the food and drugs act went into effect, more has been done to provide a good, clean food supply than in all the preceding life of the nation. A wonderful change has also been effected in the character of the drugs on sale. The department has a trained force of inspectors and chemists, doing excellent work in all parts of the country in behalf of pure foods and pure drugs. This salutary law, however, needs amendment, as the supreme court held in May, 1911, that its provisions, to quote President Taft's words in his vigorous message to congress a month later, "do not cover the knowingly false labeling of nostrums as to curative effect." The president added: "An evil which menaces the general health of the people strikes at the life of the nation. In my opinion the sale of dangerously adulterated drugs . . . constitutes such an evil and warrants me in calling the matter to the attention of the congress."

### Work of Soil Mapping.

Of importance to the farmer has been the work carried on in the past five years of soil mapping and classification, so that now the area included is 407,000 square miles, or nearly 41,000,000 acres. The value of this work is incalculable.

Disseminating the valuable information acquired by the department has proved a wonderful work. Practically 200,000,000 publications have been distributed since Secretary Wilson assumed control of the department, and more than half (103,593,100) of that number have been distributed within the past five years.

Other work accomplished by the department includes a comprehensive system of weather warnings and forecasts, the meat inspection service in which 2,600 experts are employed, who see that every pound of meat sent interstate is fit for human food, protection of live stock, the checking of noxious insects, the conservation of water supplies, the building and care of public roads, and the policy for better farmhouses, so that every dollar expended in the prosecution of this work in its numerous phases has brought back a hundred fold to the people.

### Newsy Notes From Our Neighboring Town.

Mr. John Yeaton of Hampton was in town on Thursday calling on relatives.

The Granite State Monthly Magazine recently contained an article relative to the celebration of Rev. Dr. Noble's pastoral anniversary, also a photograph of the pastor and the church building.

Near the retired residence of Frank Garvin last Sabbath seven deer were seen feeding in a field, remaining there for quite awhile.

On Thursday morning the 130 trolley car returning from the Plains ran over Mr. Thomas Walden's pet dog, Rosie, instantly killing it. The accident occurred near Mr. Charles H. Brackett's residence. The family were very fond of the dog which they had kept for many years.

Charence Hantress has commenced work on Mrs. Eleanor Wentworth's summer residence which will occupy him for several weeks to come. A new bathroom and various minor improvements.

Miss Bernice Dearborn and Miss Winifred Record passed Thursday at Kittery, Me., the guests of Mrs. Barle Dearborn.

The Leavitt house on the corner of the road near the saw mill bridge, has been rented to Mr. and Mrs. Miner.

The annual home missionary meeting was postponed from last Tuesday to Tuesday of next week.

Mrs. Joseph Chapman is reported to be better from her recent illness, but still confined to her room. Her little grandchild, John, is still critically ill.

The voices of the frogs were heard Thursday evening for the first time this season. It is a gratifying indication that springtime is here.

## COUNTY ATTY. RICHARDSON CONVICTED BY LEGISLATURE

Continued from First Page.

and that when Associate Justice Paley of the supreme court declined to file the case Richardson presented an indictment which had not been signed by him or by the foreman of the grand jury, Deputy Sheriffs Stone of Bladeford and Doyle of Bladeford were the only witnesses.

An effort was made to restrict the whole case to the White indictment, but it was unsuccessful. President Clifford of the senate ruling that the attorneys could not enter into an agreement to that effect and that the two branches could not amend the resolve for an address in convention.

The defence was a general denial of all the charges. County Attorney Richardson repeated much of the evidence given in the Emery trial, which was to the effect that a Bladeford man solicited his protection for liquor dealers and promised that he should have \$50 a week for it. The county attorney said that he insisted that the money must be paid by the sheriff, and that as a result of the actual payment of the cash he began proceedings which are now pending in the courts of York county.

The senate sustained the charges by 16 to 8, and the House by 67 to 55. The resignation of Sheriff Charles O. Emery of York county was handed to Gov. Plaisted this afternoon. The Legislature today failed to convict him on bribery charges brought by County Attorney Richardson.

The senate adopted the address for his removal on the charge of attempted bribery, but failed to sustain the second charge of bribery, the vote being a tie. The House rejected both charges.

Closing arguments in the impeachment proceedings were made by Attorney General Pattangall for the senate and by Judge Louis C. Stearns of Bangor of counsel for the defence.

In his letter of resignation Mr. Emery said:

"In view of the fact that charges involving my official integrity have been made and that a case based upon these charges is pending in the supreme judicial court of York county, I deem it my duty toward my friends, my family and my party to retire from public service until my innocence is established in court, as full as I have been able to before the Legislature."

During the hearing of the Emery case, Judge Stearns in defense of Mr. Emery denounced County Attorney Richardson and pleaded that the convention treat the respondent as an old man whose character always had been above reproach.

He denounced as a fanatic Edward H. Emery of Sanford, secretary of the Christian Civic League of Maine, a nephew of the sheriff and one of the principal persons giving evidence to support the charges against him. He argued that it was incredible that Emery could, while standing in the cellar of Richardson's house, have heard conversations in the room above the furnace pipe, and have failed to hear conversations in his office through a hole in the wall.

## RAILROAD NOTES

Charles S. Davis of Dorchester was arrested in Boston on Friday charged with receiving stolen property. Davis had pawned four 500-mile mileage books for about \$12, which the police charge were stolen from the Boston and Maine railroad station at Lowell Junction, when the station was robbed Thursday night.

Davis claimed that he met two men at the State Employment Bureau yesterday who gave him the books which he pawned and then gave them the money.

Reports have it that some of the repair shops of the Portland Division of the Boston and Maine Railroad will be a thing of the past when the big shops are completed at Billerica, Mass.

## STOLE \$20 FROM HIS FATHER

Frank Letterio, a North End restaurant keeper, reported to the police today that his boy was among the missing as well as \$20 of his cash which he claims the son took before he skipped. The father said the boy with the "twenty" took the 10:55 train for Boston and the police headquarters then were notified to get a line on the boy. When the train reached there at 12:45 p. m., young Letterio had hardly landed on the station platform when he was arrested. The father left on the afternoon train to bring him back. The fact that the boy was missing is nothing new to the local police or his parents, who have had more or less bother from the lad with his side trips from Portsmouth.
